stmarksmilwaukee.org**

The Spring Flower Sale benefits the Outreach Ministries of St. Mark's Church, including Common Ground, Eastside Senior Services, Episcopal Relief and Development, The Gathering, Guest House, Haiti Project of the Episcopal Diocese, Hunger Task Force, Our Next Generation, Pathfinders, Meta House, and Sojourner Family Peace Center.

**St. Mark's Episcopal Church • 2618 N. Hackett Ave.
We gather for worship on Sundays at 9:30 a.m.
Nursery care provided. All people are welcome.**

Help make St. Mark's beautiful this spring!

In addition to the St. Mark's 2015 Flower Sale, we are featuring a special opportunity for those who wish to help beautify the St. Mark's Church grounds. Contributions of any amount may be made to be used towards the 2015 annual plantings. The St. Mark's Garden Guild will purchase flowers and plants accordingly.

All donations to the St. Mark's grounds are tax deductible.

Thank you for helping St. Mark's Episcopal Church
reflect a cheerful and welcoming presence in our community.

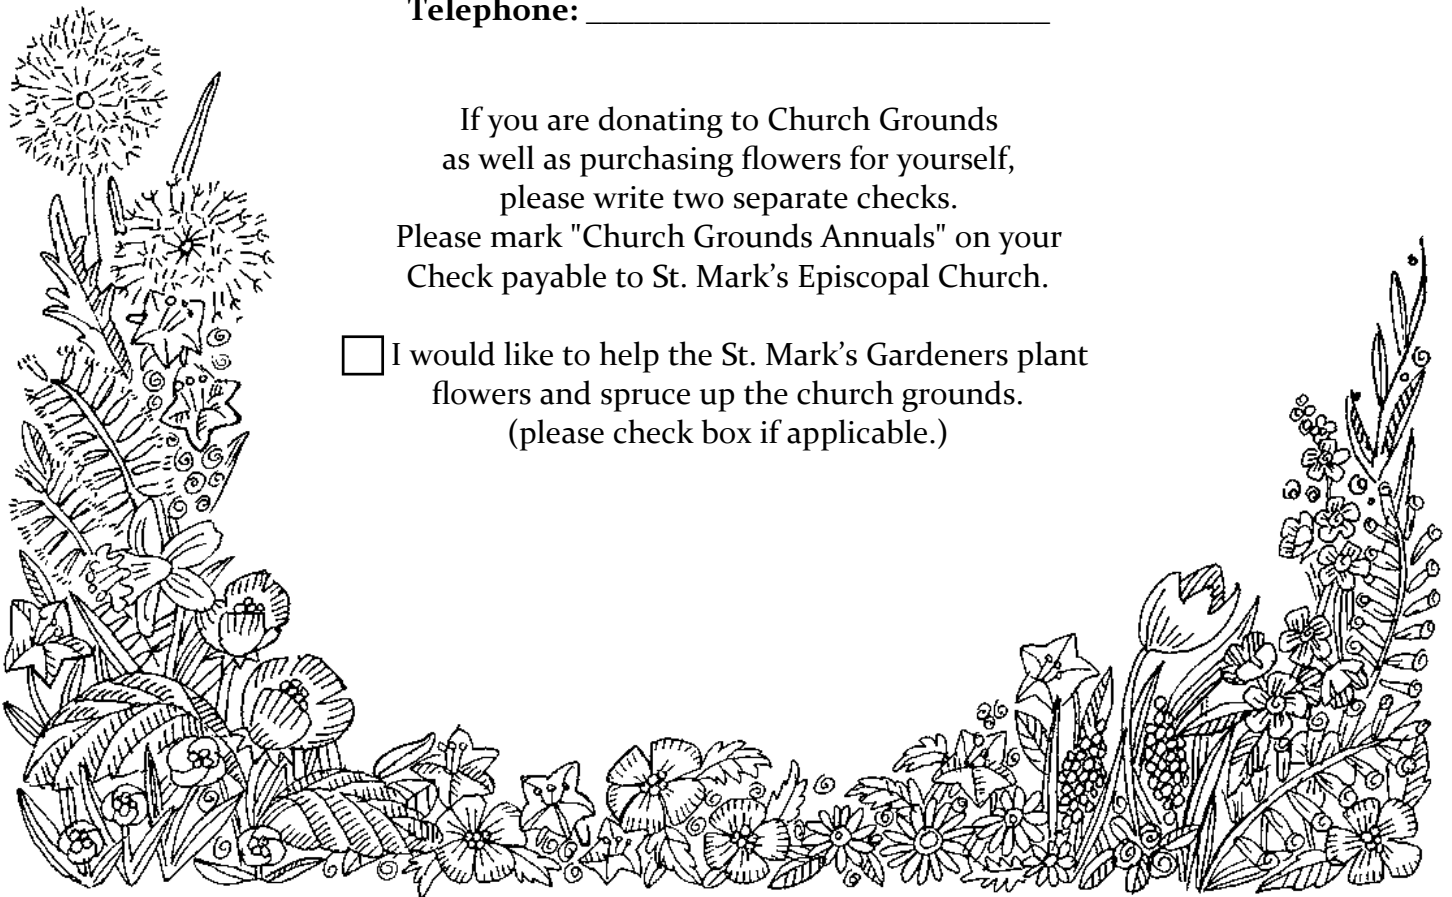

Church Grounds Donation \$ _____

New this year!

FLOWER SOURCE GIFT CERTIFICATES!

Available in \$20 and \$30 increments; give as gifts or keep for yourself. You have complete freedom of choice and are not limited to just the flowers on our list. St. Mark's still receives a benefit since our cost is less than the face value of the certificates. Certificates must be used by July 31, 2015.

ST. MARK'S FLOWER/ PLANT SALE – Vegetable and Herb selections - 2015

Vegetables:

Cucumber 'Salad Bush' – Space saving variety that produces dark green, 8" fruit. It can be grown in the garden or in containers; good disease resistance. 57 days to harvest

Eggplant 'Fairytale' – Compact plants are good for containers or small space gardens; dark purple and white striped 'baby' finger length fruits that can be harvested at 4". Nearly seedless. Harvest 50 days from transplant.

Pepper 'Corno di Toro' (Horn of the Bull) – An Italian heirloom stuffing pepper. Sweet and crisp flavor. 65 days from transplant for green; 75 days for red.

Pepper 'Poblano' – mildly hot/sweet pepper that turns dark red when ripe. Traditionally used for Chiles Rellenos. Harvest about 65 days after transplant.

Pepper 'Yum Yum' – mini yellow bell pepper with sweet taste. Strong, stout plants produce lots of 1"x 2 1/2" elongated fruits. Harvest at 60 days for green, 80 days for yellow.

Tomato 'Amish Paste' – Heirloom type from Wisconsin via the Pennsylvania Amish. Excellent yields of 6-8 oz fruit; good for gardens or containers. Classic meaty tomato for making sauces and canning. Harvest at 74 days after transplant. Indeterminate.

Tomato 'Black Krim' – Heirloom type from Crimean and Black Sea area. Heavy producer of 10-12 oz beefsteak type fruits. Unusual mahogany-purple skin that darkens to near black in hot weather. Maturity at 75-90 days. Indeterminate.

Tomato 'Patio' – Dwarf type; excellent for containers and small gardens. No need for a cage though a short stake is helpful. Produces 3-4 oz fruit after 70 days from transplant. Determinate.

Tomato 'Sun Gold' – Cherry type tomato with large clusters of golden-orange fruit; sweet tart flavor. 65 days to maturity from transplant. Indeterminate.

Wisconsin 55 – Heirloom type bred by UW Madison in 1940 for Wisconsin's short season. Good, allpurpose variety with smooth 8 oz fruits of great flavor and sweetness. Considered the best tomato for Wisconsin. 78 days to maturity. Indeterminate.

Herbs:

Basil 'Genovese' – classic basil for pesto and other cooking.

Coriander/Cilantro – used in Mexican and Asian cooking

Parsley, curled – excellent for cooking and as a garnish

Rosemary – classic culinary herb

Thyme, English – used for 'bouquet garni' and 'herbes de Provence'
