

January 23, 2024

Dear fellow members of St. Mark's,

Reflecting on 2023 leaves a lot to be proud of as an organization.

From a process and procedure standpoint, we've made significant investments to improve the effectiveness and maturity of our operation. These changes have enabled the business side of our organization to continue to operate in a more digital and virtual way given our current lack of offices during the construction. Some highlights of the efforts include:

- *migrated all online giving to Breeze*, our church management software. This reduces our processing fees, increases accuracy of donation reporting and reduces manual efforts.
- *migrated bookkeeping services* to an independent firm, Hintz Giuffre CPAs. This local firm has provided greater accuracy & confidence in our financial reporting, documented processes, and resource depth in the case of vacations or employee turnover.
- **revised our invoice processes** to digital approval and payment processing. This gives us a digital record of invoice approvals and electronic payment processing to our vendors.
- *implemented a "tellering team"* to process weekly donations for deposit and recording into Breeze, our church management software. This group of individuals is both detail-oriented and good with numbers, working to ensure our donation records are accurate. If you are interested in helping with this, we are looking for more volunteers, please reach out.

From a financial operations perspective, here too we have a lot to be proud of:

- Donations exceeded our budget by more than \$38,000
- Expenses were slightly less than budgeted

All of this said, we do have challenges in front of us.

From an operational standpoint, I shared in May that we have been running a deficit budget for over five years and this has nearly depleted our operational reserve. I also shared in May that with the help of Caroline Senn, the diocesan CFO, we developed a 10-year forecast that works to move us to cash flow positive and in a position to rebuild reserves. As a parish everyone stepped up to help us stay on track, you exceeded our forecasted pledge by \$26,500 committing to \$344,580 for next year's budget. THANK YOU!

With this commitment in pledges, we have built a budget for 2024 that results in a \$25,030 deficit. This is a significant step on our plan towards a sustainable, surplus budget to support our long-term ministry. As I mentioned previously, the next few years on this journey will be especially challenging as our operational reserves have been depleted to \$76,700. This means we have very little cushion to address unforeseen expenses over the next several years.

On the building side, our capital campaign consultant estimated that we could expect to raise between \$750,000 and \$1,000,000 for a new building. We have exceeded that estimate by pledging \$1,241,000 towards the building! Once again, this is amazing work. Unfortunately, this falls short of our \$1.4M goal and due to cost increases since we set the goal in May, we will be unable to finish the building. The current plan, as you likely know, is to continue to build as much as possible with the funding we've raised—the basement and first-floor shell. With remaining funds and additional micro-campaigns, we will complete the interior in phases. I know that this is a frustrating result given how hard we have worked as a parish, but we believe this path will result in a usable building in the quickest possible time.

Thank you for your continued generosity, and support of our ministry. I look forward to speaking with all of you in more detail during our annual meeting next week.

Sincerely,

Jason Shimko
